EDUCATION

University of Nottingham

PhD in Economics

Nottingham, U.K.

Oct. 2021 – Jan. 2026 (exp.)

- **Theory & Experiment:** Extended behavioral theory and designed a novel economic experiment to test the strategic interdependence of information avoidance decisions. Applied causal inference methods (experimental design, power analysis, stratified randomization, IV methods) in Stata and R, and implemented simulations in Python.

University of Nottingham

Master in Research in Economics

Nottingham, U.K.

Oct. 2020 – Sep. 2021

- **Best Performance Award:** Achieved top grades in Master of Research.

Instituto Tecnológico de Buenos Aires (ITBA)

Diploma in Machine Learning and Deep Learning

Buenos Aires, Argentina

Mar. 2019 – Dec. 2019

- **Machine Learning:** Implementation of Machine Learning (Supervised and unsupervised learning) and Deep Learning (RNNs, CNNs for image and text analysis) in Python (tensorflow, scikit-learn, XGBoost, keras, pandas).

Universidad de San Andrés

Master in Economics

Buenos Aires, Argentina

2019

- **Best Dissertation Award:** Top of 40+ eligible theses.

Universidad de San Andrés

B.A. in Economics

Buenos Aires, Argentina

2011

EXPERIENCE

Universidad de San Andrés

Argentina's top-ranked Economics department ([RePEc Ranking](#))

Buenos Aires, Argentina

Invited Professor, Department of Economics

June 2022 – Present

- Designed and delivered a Master's-level course on Behavioral Economics by invitation.

Mercado Libre

Largest e-commerce and fintech company in Latin America ([More Info](#))

Buenos Aires, Argentina

Data Scientist, Marketing Science

Mar. 2020 – Aug. 2020

- **Big Data Processing:** Handled large-scale transaction data (~1 billion transactions per month) using SQL for data analysis.
- **Data Visualizations & Reporting:** Built and automated weekly Tableau dashboards to track core marketing KPIs across 18 countries for senior leadership, enabling rapid response to lockdown impacts during COVID-19 market disruptions.
- Transitioned to PhD to deepen expertise in research, causal inference, and experimental design.

Samsung Electronics

Product Manager, Product & Marketing, Digital Appliances Division

Buenos Aires, Argentina

Mar. 2016 – Feb. 2020

- **Project Management:** Led product and marketing strategy by coordinating cross-functional teams (spanning sales, marketing, supply chain, and customer service) in Argentina, Paraguay, and Uruguay, managing 50% of the division's revenue.
- **Best employee award:** Overcame several external delays in product development to achieve on-time launch of air conditioners (with demand concentrated in 2 months) by shortening critical path of logistics by 1 month, securing 15% of division's annual revenue target.

Supply Chain Management Coordinator

Mar. 2013 – Mar. 2016

- **Operational Excellence Award:** Consistently exceeded KPI targets, achieving >90% Forecast Accuracy (vs. 70% target) and > 90/100 Sales Target Accuracy —key contributions that helped the subsidiary win a global award on Operational Excellence for 16 consecutive months.
- **Data Pipeline Development:** Developed an automated sales reporting pipeline by connecting ERP data to Excel (formulas/pivot tables) and PowerPoint. By minimizing manual work, the pipeline reduced errors, improved accuracy, and instilled team-wide trust in data, accelerating decision-making with reliable reports.

PUBLICATIONS

Publications

- “Discrimination with Inaccurate Beliefs and Confirmation Bias” *Journal of Economic Behavior and Organization*, 2023 (with Christian Ruzzier). [Link](#).

Work in Progress

- [JMP] “Contagious Ignorance: Theory and Experiment on the Interdependence of Information Avoidance” (with Silvia Sonderegger and Fabio Tufano). [Link](#).

AWARDS & CERTIFICATIONS

Academic Awards

- Visiting at IZA/University of Bonn, hosted by Prof. [Florian Zimmermann](#), 2025.
- Best Presentation at PhD Conference (year 2), University of Nottingham, 2023.
- Best Performance in MRes in Economics (top score), University of Nottingham, 2021.
- RIDGE-Nottingham Scholarship: full funding for 5 years (awarded to only 1 student from Latin America).
- Best Economics Master’s Dissertation (Top of 40+ theses), Universidad de San Andrés, 2019.
- Teaching Excellence Award, University of Nottingham, 2021/22 and 2022/23.

Industry Awards

- Best employee award for “outstanding behavior and valuable contributions to business”, Samsung Electronics, 2017 (among 200+ eligible employees).
- Global Operational Excellence award (key contributor for award at subsidiary level), Samsung Electronics, 2016.

Certifications / Courses

- “Chicago School of Experimental Economics” (online), Sep. 2025
- “Foundations of Machine Learning”, University of Oxford (taught by Maximilian Kasy), Sep. 2024.
- “Randomized Controlled Trials”, Barcelona School of Economics (Owen Ozier & Pamela Jakiela), Jul. 2023.
- “Statistics”, “Fundamentals of Programming”, and “Fundamentals of Linear Algebra”, Master in Information and Data Science (MIDS), U.C. Berkeley, 2020.¹
- “Statistical Learning in R” (with distinction), Stanford University, Mar. 2020.

TECHNICAL SKILLS

Programming: SQL, Python, R, Stata

Experiments/Surveys: Qualtrics, Lioness.

Data Visualization: Tableau, Matplotlib/Seaborn/Plotnine, ggplot2.

Developer Tools: Git (version control), VS Code (IDE).

LANGUAGES

Spanish (native) | English (proficient) | Korean (intermediate) | French (basic).

INTERESTS & VOLUNTARY POSITIONS

- Volunteered to improve work integration at Samsung Electronics by providing Korean culture induction to Argentinean new hires, enhancing cross-cultural understanding and reducing unnecessary frictions at work for 20+ new employees annually.
- Co-organiser of Brown Bag seminars, Centre for Decision Research and Experimental Economics (CeDEx), 2022-2024.
- PhD Representative, Centre for Decision Research and Experimental Economics (CeDEx), 2024-2025.

¹While admitted to the program, dropped out from further modules due to funding constraints.
